ISLAND HOPPING TOUR C, SHARED

This is a shared trip to the magical bay. The boat crew is proficient in boat trips between the islands, and the boat maintenance and convenience are very important to us. This is mainly a snorkeling trip in the turbulent areas of the bay. A trip to El Nido is one of the high-bay trips of Bacuit Bay, a very interesting and fun "skipping island". The stunning rock formations, the hidden beaches and the blue lagoons that inspired Alex Garland's "The Beach" novel written while the author was in El Nido and later became a famous film starring Leonardo da Caprio. The island is located on the islands adjacent to the movie 'Stolen Identity', on the island islands of Dilumacad / Helicopter, Tapiutan Island, Matinloc Island, apart from the Hidden Coast, the island is also famous due to Kulasa Beach, Star Beach, Matinloc Shrine, Matinloc.

Guided tour of Manila brings you to the well-selected historical landmarks and interesting parts of the city. This tour literally begins at the point from which all distances from Manila are measured: the monument of Dr. Jose P. Rizal. Then you explore Intramuros the "Walled City," which was the seat of Spain's 300-year colonial rule.

From there, unfold the country's rich history as you stroll along a cobbled stone walk leading to the San Agustin Church. This is the oldest stone church in the Philippines and considered to be a UNESCO World Heritage Site. It has its own museum of religious and historical artifacts as well as priceless artworks.

Then walk across the street to the Casa Manila, a museum that recreates the lifestyle of the colonial period during the late 19th and early 20th centuries. and the old residence of the Governor-general (President) during the Spanish era—which is now the head office of Land Bank of the Philippines
