South Pantanal and Bonito

5 days / 4 nights

4 pax

The Pantanal is the largest wetland area of the continental world. There are approximately 210.00 km² spread over three countries in South America: Paraguay, Bolivia and Brazil. Most of this plain (approximately 140.00 km²) is in Brazilian territory, in the states of Mato Grosso do Sul and Mato Grosso. Due to its geological profile that provides a water pulse Pantanal has two distinct seasons annually to drought and the flood. It has one of the highest biodiversity in the world.

Bonito: Situated in the Serra da Bodoquena Region, it is 290km from Campo Grande. Pole Ecotourism worldwide, its main attractions are the natural landscapes, fluctuations and dips in rivers of clear water, waterfalls, caves, caverns and sinkholes. It is the main activity of the region for a long time, besides being in constant evolution looking for the slightest interference in nature.
