They prefer centrally located 4-star hotels – rooms with balcony or terrace.

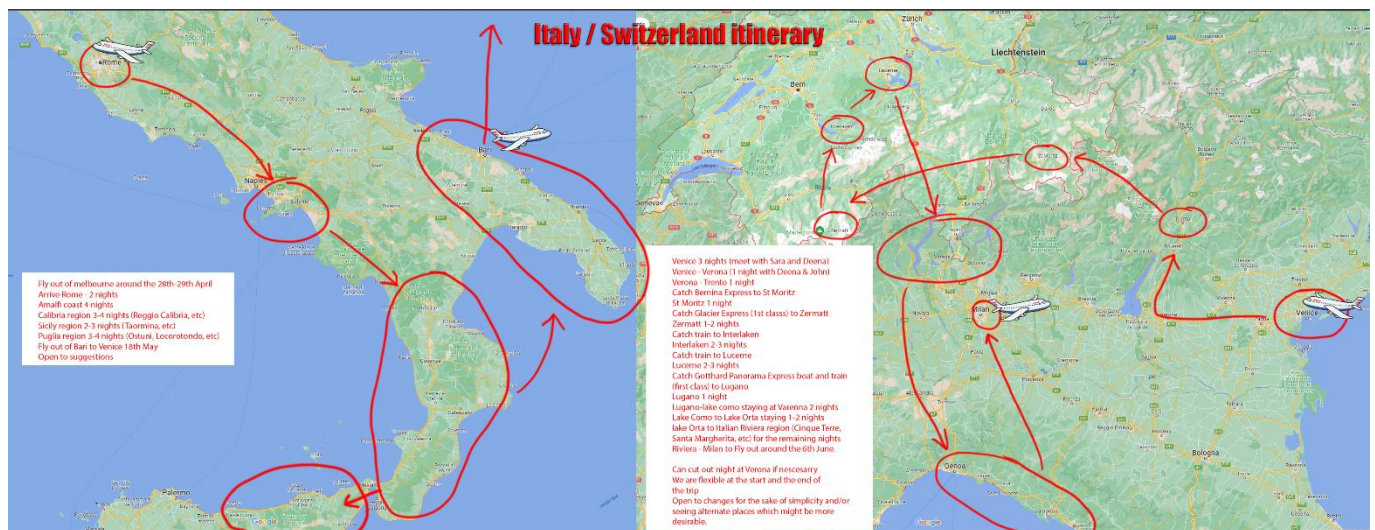

Anywhere where they're staying for 1 night is ok to just be 3-star.

30Apr – Rome

* Private transfer from airport to hotel (arrive at 08:05)

* *These clients have already booked The Style hotel for 2 nights in Rome*

From here, this is their idea of what they want to do. (I've attached a separate copy of this so you can zoom in)

2May – Sorrento (3 nights)

* Train to Naples

* Private transfers to Sorrento

* Include a day trip to Capri

5May – Southern Italian itinerary (13 nights total)

* Small automatic car hire from Sorrento to Bari

* Happy to be guided by you as to where they stay & how long

* Need to include ferry to/from Malta

18May – Venice (3 nights)

* *Flight from Bari to Venice (which I still need to book)*

* Transfers to their hotel

* They'd like to stay very close to her sisters, but in a more cost-effective property

21May – Verona (1 night)

* Transfer to station (with Deena & John) – *happy if all costs covered by them!*

* Train to Verona (with Deena & John)

* They'd like to stay very close to her sister, but in a more cost-effective property

22May – Northern Italy & Switzerland (15 nights)

* Happy to be guided by you here too, but the MUST DO requests are:

- Bernina Express across the alps from Italy
- Glacier Express to Zermatt
- Room with Matterhorn view in Zermatt
- Gotthard Panorama Express

* Everything else can be done in any order – we can cut out Milan if you recommend staying somewhere close to the airport (eg. Lake Orta) as their last night's stay.

06Jun – Fly home

* Private transfer to Milan Malpensa airport
