- **COOKING SCHOOL: FROM MARKET TO TABLE**

Learn to cook typical Italian dishes in 4 hours, from market to table. Visit the central market of Florence with your chef before learning tricks and procedures of preparing typical Italian dishes, which once at home, you can replicate again.

What if you came back from Italy and could show your family and friends, not only the photos, but also your cooking skills? Wouldn't it be nice to surprise them with a typical Italian dish cooked by you? Join our cooking class. You will acquire unique techniques and the best tips to prepare a perfect Italian meal! The class will start with a visit to the market: our Italian chef will help you choose the best ingredients. Once you have all the necessary ingredients, you will reach the cooking school where you will start preparing the meal. During the four-hour lesson, you'll prepare a full Italian meal, from appetizer to dessert. We will first prepare all the necessary ingredients by washing and cutting them. Our chef will show you how to prepare fresh pasta from basic ingredients and you will have the chance to knead it yourself! You will also cook the sauce (tomato, Bolognese sauce or pesto), the "bruschetta" as an appetizer, as well as a dessert! Our chef will show you how to decorate your plate and finally you will have lunch with the fantastic dishes you have prepared. Lunch will be accompanied by a local wine, water or soft drink. At the end of the class you will also receive a graduation certificate signed by the chef, as well as recipes for the dishes you have prepared, so that you can try them again at home. At the end you will be driven back to the starting point in the center of Florence
